Our Home:

We are living at the Westerwald. This is a region in Germany and has an area from 3.000km². The Westerwald is known for the fresh air, the cold wind and the many lakes.

We have our own beer. The Hachenburger beer.
Carnival

Carnival or nearly night are the names of the happy colorful festival which is celebrated every year in the spring seven weeks before Easter for several days. Everyone dresses up cheerful and celebrate the festival with full of fun.
From April to October we celebrate the Kirmes. Every weekend is Kirmes in another village. This is a traditional church consecration festival.
Dear friends,

I'm Justine and I'm 18 years old. I live in one of the few small villages in Germany. In my free time, I often go to a farm. It's called Steinebach.

Now you know something about us. German guys. Maybe you can tell us how you live here.

Jana: Hey there, Justine. I'm Jana and I am 18 years old. I live in one of the few small villages in Germany. In my free time, I often go to a farm. It's called Steinebach.

Be blessed.
As you may already know, we visit the high school and technical school plus Hachenburg. This school is located, as its name suggests, in Hachenburg. Hachenburg Westerwald is located in the northern state Rheinland-Pfalz of the Federal Republic of Germany. Hachenburg has about 5800 inhabitants and is recognized as a recreation area. Hachenburg is surrounded by the rivers Nister in the north and in the south Wied. In addition, the city is surrounded by a very large forest area, the State Forestry Hachenburg.

In the city there is the castle, which was in 1180. The castle was the residence of the Counts of Sayn, and later as a prison and today as the site for the University of the Deutsche Bundesbank.

The landscape around Hachenburg is very diverse, there is one in the north of the Kroppacher Switzerland, in the south of the Wiedtal and the Westerwald Lake District.

In the town center, just below the castle is the old market of Hachenburg. This is a meeting place for locals and visitors and is based around the fountain with a golden lion is a symbol of the county of Sayn. Surrounded is the old market of many restaurants, cafes, clothing stores and two churches. The Old Market is a center of Hachenburg and is used regularly for celebrations and events, such as the traditional Christmas market or open-air events.
Hello,

before I tell you about myself further advance first: My name is Kim i am eighteen years old and in the graduating class of Fos.
I have your letters with joy read think it's good that our school is in partnership with you. Have seen of your cows the images. We also have our own farm just a few more cows than you. I also have my own horse and a dog. Our milk we sell to a dairy. I really envy you very much for the warm temperatures currently it is still a bit cold but today was a beautiful sunny day. I'll tell you now a little bit about our farm. We currently have 60 cows with offspring today we also have a new calf. We do all the work proceeds relatively manually. We have three tractors and a large milking system. I have my own stables next door for my horse.

I hope you are very happy about our letters! Kim :)
Hello everybody,

our names are Anna, Stella and Zita. We are 18 years old and visit the 12 Economic class. Once a year our school has the chance to participate at a Skifreetime. That means we travel, at schooltime, to Austria to go skiing or snowboarding. Our teacher, Mrs. Stricker goes with us. This is the person, who comes to you. The Skifreetime begins with an about 8 hours bus trip to the hotel in Austria. Every year this is different. This year we were at „Breitenbach at Inn“ Our hotel „Pauling Hof“ was very good. Every day we go by skibus to the Skiing area. We make three groups, one group with Ski beginners, another group with advanced skier and the last group with snowboarders. One teacher for each group. Skiing can be very dangerous, this year a little boy fell down and broke his arm. After skiing, we sat together in our living room and talked about a lot of topics. We enjoyed this trip.

Best Wishes,

Anna, Stella and Zita
Dear friends,

How are you? We are fine.

Our names are Patrizia and Karina. We go into one class and know us since 2 years. We want to tell you something about the weather here in Germany.

We decide between four seasons.

The first season is from March- May. We call it spring. In this time the sun begins to shine and the Flowers start to bloom. But it's cold and we have to put on warm clothes.

The following season is from June- August. This is summer – the best season every year. The sun is shining and we can go to the open-air-pool or lying at the sea. We can wear short clothes and open shoes.

After that the autumn comes. That's from September to November. The leaf's falls from the trees and everything is colorful. But then the sun shines less and it will be a little bit colder. Slowly we have to go shopping for longer clothes.
The last and coldest season is from December to February and calls winter. The snow begins to fall and the sin is away. Now we have to be careful that we don’t fall onto the ground because it’s smooth.

Now we have spring.

We hope to hear from you soon.

Yours faithfully

Karina and Patrizia
Hello my Friends,

we are Collin and Christopher from Hachenburg, Germany. We live round about 25 kilometers away from Hachenburg in little villages. From monday to friday we drive by car to school. Because it is difficult to get there by bus. Schools everyday starts at 7:20 a.m. and ends regular at 12:30 p.m. One school hour are 45 minutes long. In one week we have 30 school hours. We are in the economice class. Our subjects are: German, English, Maths, Economics, Sports, Religion, Biology and sozial studies.
In our freetime we like meeting friends, go to the cinema, play football and so on.
We complete the school in summer 2015. After school we both have a apprenticeship. Collin as an Officer for the Westerwald-Kreis and Christopher as an industrial manager.

We wish you all the best for your future

Dear reader,

We, Anica and Tara, are writing you this letter from our school in Germany. We are in form 11 health. Because both of us think that you know a lot details about our school system here, we want to tell you something about us, and what we often do in our free time here in Germany.

We would be very happy, if someone of you would answer us and tell us something about you, your hobbies and something like this.

So, we are Anica and Tara from Roßbach, a small town here in Germany. We are 16 years old and friends since the kindergarten. Since this month, the weather here is much better, the winter is already over and spring is coming soon, what makes us really happy. When it’s sunny, we often ride our bikes. In Roßbach, where we live, there are very nice forests and fields and we often ride to a pond, about half an hour from our hometown away, and just enjoy the sun and talk a lot. Besides that, we like to go outside with our dogs. Since we are children, we are members of a gymnastic club here in Roßbach. Gymnastics is our big hobby, 1 to 3 times a week we have training with a group of girls and boys. When the weather isn’t nice, we just look a bit TV or a nice DVD.

You can see that we always have something to do. 😊

We look forward to hearing from you.

Anica und Tara
Dear reader,

I'm Marianne from the FOS Hachenburg. I was born in 02 May 1997. My hobbies are diving and playing Interrosse.

How are you in Rwanda? I think it's cool in Rwanda, because you have summer every day. Today it's a sunny day with 5°C in Germany. But two weeks ago was still snow everywhere. So I hope it will soon spring. Then I could finally go to a lake and dive there.

For the time I am doing a year placement in a Nursing Home. I like my workplace, because my colleagues are very friendly and just because they are still young, we get along very well. And I like working with elderly people and I like to help them.

I would be interested what you do in your free time and I hope write me back. I would be happy.

Your Marianne
Hey pupils,

I'm an 16-year old student at the eleventh class with an main focus on medical care. At the moment I absolve my one year work placement at the hospital on the surgery ward. Three days the week I work there and on two days I go to school. In my opinion it's very stressful to learn after work. But it's an rewarding experience for me and I learn a lot! My daily tasks are for example: check the temperature and blood pressure of the patients, take them to investigations or just help them with their bodycare. The most interesting part is to locking patients to their operation or attend the wounds. Furthermore, I have to document all my activities. My long-term aim is to become an nurse, physiotherapist or paramedic. These are all wonderful jobs ;-) Well enough from myself. I hope you're all fine and I'm looking forward to hearing from you.

Yours sincerely,

Ester Fast
Hello,

how are you? We are fine and we hope you too.

We are happy that we can build up the contact with you!

Let's talk a bit about us. We are 18 years old and go to school in Hachenburg. Our hobbys are football, tennis and meeting friends. Two of play football in a team and one plays tennis in a team. In our freetime and at the weekends we meet our friends and do something with them.

Now we are in grade 12 and we will finish school in summer. After school some will go an university and some will start their apprenticeship.

Jan has got a big brother like Marvin. Tobias and Vincent have a sister and Philipp does have a big sister and a big brother.

Best wishes and all the best for the future,

Jan, Marvin, Philipp, Tobias and Vincent
